## Excerpt from Gloria Frandsen's Graduation Speech

...Through this journey at Beloved Saint Germain’s “I AM” School I have learned many lessons, but the one thing that stuck with me throughout my entire journey was the lesson of Gratitude. Someone very wise once told me, “Whether you are having a day in which nothing seems to go right or the best day of your life, there is always something to be grateful for.” As I look around this room I see countless things to be grateful for. People who have supported me, people who have encouraged me, and most importantly

people who love me. I have learned, in my years up until now, that Gratitude brings happiness; not the other way around. At Beloved Saint Germain’s “I AM” School we have so much to be thankful for. Every day we are blessed with something new: anything from knowledge and experience, to love and friendship. We are taught to cherish not only the gift of education, but the gift of friendship and family. We truly do become a family, we learn together, have fun together, and, most importantly, we

grow together. We grow and become a family, I am so proud to call all of you that, My Family. Thank you, to each and every person who has been there for me. I am so grateful. Beloved Mighty Cosmos says: “My Dear Ones, when you understand what Blessings can be yours by Gratitude and Love to your ‘I AM Presence,’ *enough* of It to your ‘Presence,’ you cannot lack for any good thing in the outer world.” (*The Voice of the “I AM,”* 1988. 7:11)

## FIELD TRIPS!

**Ashland Science Works Museum Field Trip:** The kindergarten class and the grade 3/4 class went to the Science Works Museum in Ashland to learn the physics and mechanics of a roller coaster, culminating in the students getting to build their own roller coaster.

Kevin (grade 4): "The Ashland trip was cool. I met new people at the Science Works Museum. I enjoyed making my own roller coaster; it was very interesting."

Heather (grade 4): "When we were at Science Works my dream came true. My dream was to be in a huge bubble and I stood in a huge bubble maker. Then we went to a tea house where I drank peppermint tea which was really yummy and it made my day."

## Spring Recital

"I AM" so grateful that we had a wonderful, Miracle Spring Recital! All of the children (13 students) who attend the "I AM" School participated. Six of them had not studied music or piano before. Instruments played were 2 pianos, a violin, 2 vibraharpes, 2 harps, 2 keyboards and organ. The program consisted of thirty-one pieces. Each student played a memorized solo and at least one duet. One person played four duets. This year we enjoyed hearing three duets played on two pianos: "Jesu, Joy of Man's Desiring" by J.S. Bach; "Canon in D" by J. Pachelbel and "Sonate I" by Clementi. All the students participated in the final piece, an ensemble, "Ah! Vous Dirai-Je, Maman". Mozart wrote twelve variations for this music. The melody dates back to the 18th Century and has been called by different names, such as "Twinkle, Twinkle Little Star" and "The Alphabet Song". Our orchestra included a piano, a violin, 2 vibraharpes, 2 harps, 2 keyboards (flute and clarinet sounds), organ as well as a "Glass Armonica" sextet, which is a glorified name for six glasses filled with different levels of water to create different tones. The sound was created by wetting the finger and rubbing it on the rim of the glass. A wonderful memory which I have of the entire recital is seeing each child with a smile on their face as they stepped up to play. We thank the "Beloved Mighty I AM Presence" and the Ascended Host for all Their Assistance and Miracles which made this recital a wonderful success! ~ Miss Doreen

## Graduation 2017

...At the "I AM" School, every day is started with Assembly. Following our small class that is led by a student, we have what might be the most important part of our day, Gratitude Circle. This is a time in which we sit in a circle and share with each other what we are grateful for. Sounds simple right? It is actually quite the opposite. It is a very important time, and one I have grown to love very much. We get to share with each other what makes us happy, what accomplishments we have had, and even what we look forward

to in the future. It is a time for us to focus on the positives and look at all of the blessings we have been given. For this small amount of time, every morning, we all have our attention on one of the purest qualities, gratitude. Beloved Goddess of Justice says: "I AM' GRATEFUL! You will never know, Dear Ones, until your Ascension what that one phrase will do for you, 'I AM' GRATEFUL! When you acknowledge Gratitude to your 'Presence' and the Ascended Host and everything Life gives you and does for you, there is

not one obstruction left on your pathway." (*The Voice of the "I AM,"* 1973. 11:15-16)

So today I stand here, in front of the most important people in my life, the Ascended Host Beloved Queen of Light, and Beloved Saint Germain, saying the one phrase that truly sums up these past thirteen years. "I AM" SO GRATEFUL!

### Ashland High School Field Trip:

The high school got to enjoy a two day trip to Ashland where we took in a play at the Shakespeare Festival; went on a beautiful Spring hike in the Ashland hills; sang songs around Miss Laurie's piano (where she also taught us some four part harmonies); and enjoyed relaxing and laughing with each other.
